## Road Rules

As many of our runs are longer, it is often necessary to run on roads around campus. When running on the roads, it is important to athletes to be as safe as possible and be aware of their situation. When athletes are on the road, there will be at least one coach on the roads with them, either in a car, on a bike, or running themselves. Athletes will be required to pass a road rules test before being allowed to run on the roads.

1. Always use common sense. If something does not feel safe, get yourself out of the situation. Also, always run with at least one other person when out on the roads.
2. Always run on the left side of the road so that you can see oncoming traffic. (Highway 30 is an exception as there is a large shoulder and would be more dangerous to attempt to cross)
3. Always check to make sure it is safe to cross a road. If cars are stopped to make a turn, go behind the cars waiting.
4. Run single file on busy roads that have no or a small shoulder. On roads with a wide shoulder or in a neighborhood, never run more than 2 across.
5. Never use your phone while running. Music will distract you from your surroundings. If you need to make a phone call or text while running, step off the road to somewhere safe.
6. If you feel as if you are being harassed on a run, and no coach is nearby, go to the nearest residence and ask for help. DO NOT GO INSIDE!
7. Never leave the designated route. This includes never getting into cars of someone else. A coach will come looking for you if you get hurt or unable to complete the run.
8. Pay attention to weather. If it looks as if the weather could be dangerous, head back to school or get to a safe place.
9. If running on roads outside of practice, be sure to let someone know where you are running, wear reflective clothing, and never run on the roads at night.
10. Be assertive. Cars are not necessarily looking for you, so be sure to protect yourself.
